

INSHA FAKHAR

Flutter & Frontend Developer

inshafakhar0@gmail.com | +92 3187871275 | Kharian, Pakistan
github.com/InshaFakhar | linkedin.com/in/insha-fakhar-206782338

OBJECTIVE

Detail-oriented Computer Science student with a strong foundation in cross-platform mobile application development and modern web technologies. Proven ability to build functional, user-centric applications through hands-on academic projects and remote internships. Seeking a challenging internship opportunity to contribute to impactful software development initiatives and grow as a professional engineer.

EDUCATION

BS Computer Science (6th Semester) | CGPA: 3.58 / 4.00 — University of Gujrat, Pakistan (*Expected Graduation: 2027*)

Intermediate in Computer Science (ICS) | Grade: A+ — Govt. Associate College, Guliana, Kharian (*2021 – 2023*)

Matriculation (Science) | Grade: A+ — Govt. Higher Secondary School, Guliana, Kharian (*2019 – 2021*)

SKILLS SUMMARY

- Mobile Development:** Flutter, Dart, Firebase, REST APIs Integration
- Frontend Development:** HTML5, CSS3, JavaScript, React
- Programming Languages:** C++, Python, SQL
- UI/UX & Design:** Figma, Canva, Mobile App UI Design
- AI & Productivity:** Prompt Engineering, Google AI Tools for Research & Content Creation
- Tools & Version Control:** Git & GitHub, Android Studio, VS Code, MS Office
- Soft Skills:** Problem Solving, Team Collaboration, Agile Adaptability

WORK EXPERIENCE

Frontend Development Intern | Code Alpha — Remote Jan 2025 – Mar 2025

- Collaborated in a remote agile environment to build 100% responsive web applications using HTML5, CSS3, and JavaScript.
- Developed interactive user interface (UI) components ensuring clean, modular, and reusable code structures.
- Implemented mobile-first design principles and executed cross-browser compatibility testing to optimize user experience.

PROJECTS

Smart Campus App — Flutter, Dart, Firebase 2026

- Engineered a cross-platform campus navigation application to streamline location-tracking and route-finding for university students.
- Integrated authentication pipelines, secure profile management, dynamic dark/light UI modes, and real-time travel duration estimates.

Fitness Tracker App — Flutter, Dart, Firebase 2026

- Developed a feature-rich health application designed to log daily workouts, monitor fitness goals, and handle user records.
- Designed an intuitive and highly responsive UI incorporating interactive progress visualization charts.

AI Career Recommender — Python, Machine Learning, Scikit-learn, Flask 2026

- Built and deployed an end-to-end predictive web application utilizing Machine Learning classification models trained on career datasets.
- Developed a lightweight Flask API backend to process user inputs (skills and interests) and return accurate, real-time career recommendations.

Foodies Hub — HTML5, CSS3, JavaScript 2025

- Designed a responsive web solution for food ordering, featuring interactive menu browsing, cart state management, and basic tracking layouts.

NOTABLE ACHIEVEMENTS & CERTIFICATIONS

- Google AI Essentials Certificate – Coursera / Google (2026)
- Google AI Professional Certificate – Coursera / Google (2026)
- Freelancing & Digital Skills Certification – DigiSkills (2025)
- Graphic Design Certificate – University of Gujrat (2024 – 2025)
- Successfully architected and deployed 5+ independent software projects across mobile, web, and ML domains (2023 – 2026).
